

IMPROVE COLOR QUALITY AND CONSISTENCY

Save time and money by streamlining color relationships among all the devices in your print production workflow.

KODAK PRINERGY COLORFLOW Pro Software integrates various elements and devices in print production, ensuring correct use of color control elements, curves, ICC profiles, and spot color recipes. The result is vibrant, consistent color excellence across different devices and print processes, delivered predictably and efficiently.

Produce accurate, high-quality color faster

Save time and enhance overall production efficiency by automating precision color adjustments and aligning color across multiple devices and print environments.

Dial in color output to your own production environment

Smoothen more accurate results using Kodak's patented color algorithms that control gray balance consistently with ICC profiles, DeviceLinks and tonal curves.

Control costs with comprehensive reporting tools

Catch and rectify problems early with the ability to check solid ink density and tonal response, analyze gray balance and neutral print density, and compare device gamuts or response to a target or standard.

Reduce ink consumption by up to 30%

Reduce CMY ink usage without sacrificing color quality or the sharpness of text and line art using the optional KODAK PRINERGY Ink Optimizing Solution.

Expand your business

Win jobs with the ability to standardize and optimize color across virtually all print processes, and to comply with a broad range of international standards including ISO, GRACoL, SWOP, G7, Fogra and others.

COLORFLOW Pro Software automatically generates G7 curves for consistent, quality color.

KODAK PRINERGY COLORFLOW Pro SOFTWARE

Powerful tools allow you to edit and align your grays with ease, while optimizing ink usage.

Common tools for curve and ICC profile editing.

Predict output tonal values with ease.

Reduce CMYK ink consumption using Ink Optimizing Solution and Color Services.

Operating Systems	Server: WINDOWS 2019/2022 Clients: WINDOWS 10/11 and macOS 12/13/14 (Silicon and Intel chips)
System Recommendations	<ul style="list-style-type: none"> • 2 GB RAM (minimum); 4 GB RAM (recommended) • Quad-Core Intel Core i7 processor or M1 processor • Adobe Reader or Apple Preview software (to display reports)
Compatibility	PRINERGY Connect and PRINERGY EVO Workflow Software
Supported Measuring Instruments	<ul style="list-style-type: none"> • X-Rite i1 Pro2 and i1 Pro3 Spectrophotometers (Note: i1 Pro3 Plus Spectrophotometer is NOT supported, and First-generation i1 Pro (UV or non-UV) is EOSL) • X-Rite i1 iO Table with i1 Pro2 or Pro3 Spectrophotometer (Note: i1iO3 Plus Table is NOT supported, and First-generation i1 Pro (UV or non-UV) is EOSL) • X-Rite iSis and iSis2 Spectrophotometer • X-Rite iSis and iSis2 XL Spectrophotometer • Konica Minolta Myri-9 Spectrophotometer
Optional Add-ons	Ink Optimizing Solution Professional Color Services
